1. As Attachment B to this memorandum you will find the DDS&T responses to those problem statements which you submitted as part of the FY 1982 RD&E Planning Cycle. You will also note that in some cases the DDS&T did not respond (primarily below the DDA 25th priority).

25X1

2. Attachment A contains several DDS&T memos sent to me, which will help to explain the approach taken this year by the DDS&T Planning and Resources Staff. Attachment C contains copies of your problem statements that relate to these DDS&T proposals. In some cases the DDS&T has lumped several DDA tabs together and addressed them with multiple System/Technology proposals. When ranking these, consider only your problem statement and how well the proposed program addresses the problem. The end result of your efforts should be a list (1 thru n) showing the effectiveness of the various solutions without regard for the original ranking of the problem statement. In other words, it is possible that a highly ranked problem could have a poor solution response causing it to be ranked well below that of a good response to a lower-ranked problem.

25X1

3. The DDA R&D Panel will once again have to combine these individual office rankings into one combined DDA ranking from 1 thru n. Attachment D is a listing of all the System Technology Sheet Titles for your convenience in ranking at the office level. To save time, you may call me with your rankings and then follow up in writing. I need your inputs no later than COB 3 December 1979. I may be reached on
